

When Private Equity transforms business and fosters innovation

PRIVATE EQUITY SUMMIT SERIES

PRIVATE EQUITY SUMMITS
SINCE 2018

- Expert and research-driven knowledge shared about private equity investment strategies
- Attended by leading European GPs, LPs and C-level advisors to ensure a high level exchange and networking
- Supported by influential private equity media outlets and research firms
- The Private Equity Summit series with annual conferences in Munich (since 2018) and Paris (since 2021)

Upcoming events

Munich
8 September 2022

Paris
14 December 2022

PRIVATE EQUITY SUMMIT SERIES

Upcoming events

Munich – 8 September 2022
Paris – 14 December 2022

THE CONFERENCES

Private equity is here to stay: Buyouts transform and consolidate whole industries while venture capital fosters research and innovation. The Private Equity Summit Series provide a forum for C-level discussions of the “big points” on the global agenda like, e.g. ESG integration, healthcare investments and the volatile macro environment.

LIMITED ACCESS

Due to the conference’s limited capacity, free access is granted in priority to C-Level investment professionals from LPs, other Institutional Investors, PE Summit Sponsors and Partners. The entry fee for other participants is 499€.

THE DORIOT AWARD

The global “Doriot Award for the Best Private Equity Research Paper” was established within the 2021 conferences. The Award Jury was comprised of a global elite of private equity researchers from, e.g. Harvard Business School, HHL, INSEAD, London Business School, MIT and Stockholm School of Economics.

They searched for academic publications in highly ranked peer reviewed journals (A or A+ ranking) on the topics of “Private Equity” and “Venture Capital”. In total, 60 journals with several volumes and issues were scanned in 2019 and 2020.

WINNERS 2021

The winning paper is “How do venture capitalists make decisions?”, published in the Journal of Financial Economics, by four authors: Paul A. Gompers (Harvard Business School), Will Gornall (UBC Sauder), Steven N. Kaplan (Chicago Booth), and Ilya A. Strebulaev (Stanford GSB).
